DES
ARTS**

2025 / 2026
Arts Education

Program Guide

For all ages and skill levels!

At Place des Arts, we've always believed the arts make our lives better — and research backs it up. A 2019 study by the World Health Organization

shows that engaging in the arts supports mental well-being, strengthens social connection, and even contributes to better physical health — benefits that apply to people of all ages.

Whether it's a young child discovering self-expression through dance, a teen building confidence on stage, or an older adult exploring a new medium for the first time, the arts offer a powerful space for personal growth and community connection. And with consistent participation, that growth deepens — many of our students have truly grown up here, developing their skills, artistry, and a deep sense of belonging at Place des Arts.

As we look ahead to this season, we're proud to offer one of the most diverse range of arts programming in the Lower Mainland. From visual arts and music to dance, theatre and literary arts, our classes, workshops and private lessons are designed for both beginners and those looking to hone their skills. Whether you're three or ninety-three there's something here to spark your creativity, build new skills, and connect you with others.

Place des Arts is more than just a place to take classes and lessons — it's a vibrant, inclusive space that feels like home. We can't wait to welcome you into our arts community!

Joan McCauley,
Executive Director

Removing Financial Barriers

At Place des Arts, we believe everyone should have the opportunity to experience and participate in the arts. Our goal is to make our programs and events as accessible as possible, regardless of financial circumstances.

To support this aim, we raise funds through corporate sponsorships, grants, donations and our annual online auction (October 18 - November 4, 2025). These funds help support bursaries, program subsidies, and a range of low-cost and no-cost programs and events, making it easier for individuals and families to engage in the arts.

Bursaries

Bursary applications are accepted throughout the year; the deadline to receive an application is six weeks before the start date of the class or lesson to which the bursary will be applied.

Musical Rainbow
3 ½ - 8 years

In this innovative children’s program, students learn the principles of music through singing songs, chanting rhymes, playing music games, and using xylophones, recorders and other instruments. This program is based on the Kodály philosophy along with elements of Orff and Suzuki methodology. Note-reading, writing and music history are taught at the upper levels. Gain a solid understanding of music and develop a strong foundation for children to study music at an older age.

● In the **Red level** (Preschool, 3 ½ - 4 ½ years), students begin by building a repertoire of musical experiences. The songs and rhymes learned will be used to inform musical concepts in later years. The goal is to have a fun, positive experience in music in a group setting. Concepts such as music beat, fast/slow, loud/soft and higher/lower pitches are explored.
